a Twelfith to Fourteenth street for
yay purposer will render the use and
sovement of said street for park pures impracticable; therefore, be it
Resolved. By the board of park comsioners of Kansas City, Mo.:
lection 1. That we do hereby recomad to the common council to provide
sodinance for placing Broadway, from
lith street to Southwest boilevard, unthe control and management of the
definition of the desired as an avenue for access to
seeks established in the West park distropolitan Street
and Company will relinquish its franteenth streets.

Mission is in a position to receive many more applications for tracts. It has about thirty acres to be distributed and this heard issued a circular letter asking the for the Grove park certificates, unting to \$113,82.01. The bids will be red June 1.

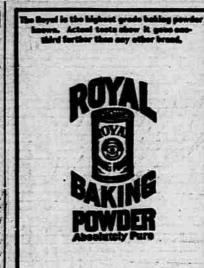

TOOK IN \$13,998.82.

pts for First Day of City Tax of Last Year.

The statement of the condition of Kansas City banks as published in The Journal
perterday seems to explain the evident indifference of the banks as to handling the
city's money. Bids were advertised for
several weeks ago, but when they were
opened they were found to be very much
lower than was thought satisfactory by the
financial authorities of the city. Bids were
financial authorities of the condition of Kanthe following tax levy yesterday for the
county Levy Ordered for 1898.

control of the park board. The park is a little tract of land between Twentieth, Twenty-first, Highland and Woodland. Superintendent Warner, of the workhouse, wanted to convert the park into a rock-quarry, but the board of public works forbade this disposition of the property. The city has expended several hundred dollars in beautifying the park which is a favorite breathing place in the Tenth ward.

EXTRA HELP MUST WAIT.

Special Investigation Committee Can De Nothing Till Apportionment

Ordinance Passes. The special extra help committee of the ouncil met yesterday and found itself up do nothing until the apportionment ordinance passes the council. This measure is now held up in the lower house. The committee discussed the situation infor-mally yesterday, and adjourned to meet as soon as the apportionment ordinance goes through and it is known definitely just how much each department will get.

Thirty-three Allotments.

The agricultural commission met yester day and made thirty-three allotments of Pingree potato patches. Several small tracts of land were donated, and the commission is in a position to receive many more applications for tracts. It has about thirty acres to be distributed and this amount will accommodate about 100 persons.

City Hall Notes.

City Auditor Bell is slowly recovering rom his attack of typhoid fever. D. K. Mitchell has been appointed col-lector for Westport by Treasurer Harrison and Comptroller Lund. W. B. Houston, formerly with the Pitts-burg & Gulf, has been appointed stenog-rapher in the office of Mayor Jones.

Tostellice Robbed at Melbourn, Me.

United States Marshal Crenshaw yesterday morning received a telegram from Positimaster Thomas Nevill, of Melbourn, Mo., saying that robbers had visited his office, carried the safe out of the building to a vacant lot near by and blown it open. They took \$50 worth of stamps belonging to the government. He was anxious to have officers sent there at once. Melbourn frouts not far from Trenton.

A BALTIMORE BELLE.

ELDORADO BONANZA QUARTE AND PLACER MINING COMPANY.

Kansas City Business Men Largely Interested in One of the Most Promising Ventures in Alaskan Gold Country.

The Eldorado-Bonanza Quartz and Placer Mining Company is one of the Klondike companies that has been able to sell much of its stock in Kansas City, because it was able to show the extraordinary promises for gain at its mines. A number of well known Kansas City business men are

Mr. George B. Peck, vice president of the the men who made a thorough investigation of the holdings of the company. The company is represented in Kansas City by Dr. Savage and M. J. McNeil. At the mines in Alaska are F. C. Berry, Alexander McDonald and P. D. Cooper. All are veterans in Alaska goldfields, having

ander McDonald and P. D. Cooper. All are veterans in Alaska goldfields, having been there from two to ten years each. They have a splendid lot of quartz and placer claims already producing gold, and they want machinery and supplies to expedite the work.

Mr. Peck is interested in claims only fifteen miles from theirs and from people there he has reliable information concerning the claims of the company. After having made a most careful investigation of the claims Mr. Peck said yesterday to a reporter for The Journal:

"From all information I can gather they have twenty-one of the finest claims in the Klondike district. Their claims are on the best paying belt in Alaska and the output from Alaska this season will be about \$25,000,000, and \$20,000,000 will come from their district. Their claims are figured worth \$25,000,000 and they are capitalized for \$1,500,000, \$300,000 owned by the six men who found the claim.

"Their stock at what they call par, \$10 a share, I believe will greatly increase in value when the returns from the past season's wash is known. They have twenty-one good claims, all with paying gold. They are in the best gold district in the world and I can not see any reason why the company can not pay 50 per cent every year to the stockholders. They are not looking for claims and gold, but have them. They are not green at the work but experienced miners; they are not promoters or boomers but business men who have come from the mines they own (not rented) to raise money in Kansas City to buy machinery, food, etc. They have no big or even small salary list, all taking their pay from their shares on their stock as pay.

"In short I believe they are offering to the rubble one of the best investments of

machinery, 1000, etc. They have no magnetic or even small salary list, all taking their pay from their shares on their stock as pay.

"In short I believe they are offering to the public one of the best investments offered in Kansas City. There is no guesswork, it's gold in the ground and to be got out, and gold in big quantities, and honest, reliable men to deal with. All money invested by stockholders is turned into the First National bank and used for machinery, food and mining expenses. Not a dollar is used to put in promoter's pockets or organizer's pockets. Every dollar has to be accounted for to the directors and can only be used for mining purposes. I have been asked why men so rich as Mr. Berry or Mr. McDonald should form a company to secure money. I find these gentlemen are rich but not in money, it's in claims in Alaska where they have been the past four years and where they are taking gold out to-day from their placer mines in a slow way. It was the idea of Mr. M. J. McNell, I believe, who is now in Kansas City, also Dr. Savage, to form this company and the others believed the idea good, as then they could work with the latest machinery, get the gold out a hundred times quicker and get out of that terrible country in much shorter time.

"About two weeks ago Mr. McNeil proposed to return the money raised and return to the mines and continue the old way of mining, as he had not expected it would take over a week to raise the \$100,000. The directors persuaded him it would be a mistake, as it would be impossible to work quarts mines without machinery, and they are very valuable. In the past two weeks a great many shares have been sold and the date for returning to the mines with the machinery is the last of this month. People are just finding out what these men have. In short they have very valuable gold claims with pay gold in sight, and no expense but machinery and food. I believe this mining company is one in a thousand that has not got a sink hole without a bottom for the stockholders' money. They ha

HIGHEST FOR THE YEAR. Thermometer Registered 86 Degree

Yesterday-May Be Show-· ers To-day. Kansas City had a touch of summe reather yesterday, the maximum temperature being 86 degrees, which is also the 88 maximum to date. The minimum was 65 degrees, there being a variation of twenty-one degrees. The thermometer stood at 80 degrees or oven all the afternoon. A grateful shower began at 5 o'clock. The rainfall was 07 inches. The indications are for more showers to-day. Following were the hourly temperatures yesterday:
